Dear Vir,

Thank you for sharing your handbook 'Breathe Mumbai' on reducing dust and nanoparticle exposure at construction sites. We have reviewed it and have begun implementing several of the recommendations across all our active sites, including wheel-wash protocols and regular wet suppression. We are planning to roll out additional measures over the coming weeks and will monitor their effectiveness. If you are comfortable, we may get in touch with questions or to share feedback from site teams. Well done on putting together a clear and practical guide.

Regards,

SHAISHAV DHARIA .
